Apprenticeship Resources

By: Joe Sak

April 18, 2013

> @abughat (https://twitter.com/abughat) do you have any plans to post a list of resources that Matthew is using? It would be very interesting for others.

Certainly! We have used the following materials:

Books:

- **Eloquent Ruby** (http://www.amazon.com/Eloquent-Ruby-Addison-Wesley-Professional/dp/0321584104)
- **The Cucumber Book** (http://pragprog.com/book/hwcuc/the-cucumber-book)
- **Pragmatic Guide to Git** (http://pragprog.com/book/pg__git/pragmatic-guide-to-git)

RailsCasts:

- Getting Started with Rails (http://railscasts.com/episodes/310-getting-started-with-rails)
- Bundler (revised) (http://railscasts.com/episodes/201-bundler-revised)

- Request Specs and Capybara (http://railscasts.com/episodes/257-request-specs-and-capybara)
- How I Test (http://railscasts.com/episodes/275-how-i-test)
- HABTM Checkboxes (revised) (http://railscasts.com/episodes/17-habtm-checkboxes-revised)
- Nested Model Form (revised) (http://railscasts.com/episodes/196-nested-model-form-revised)
- Oh My ZSH (http://railscasts.com/episodes/308-oh-my-zsh)
- Understanding the Asset Pipeline (http://railscasts.com/episodes/279-understanding-the-asset-pipeline)
- Sass Basics (http://railscasts.com/episodes/268-sass-basics)
- CoffeeScript Basics (http://railscasts.com/episodes/267-coffeescript-basics)

Peepcode:

- Meet the Command Line (https://peepcode.com/products/meet-the-command-line)
- Advanced Command Line (https://peepcode.com/products/advanced-command-line)

Joe Sak

Joe was Neoteric's lead developer. When not working, he's playing the drums, spending quality time with friends and family, and riding his bike.
